#### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Timothy Whalen on 2/12/09.

The application has been amended as follows:

In claim 12 on line 1, delete '11' and insert ---1---.

#### *Reasons for Allowance*

2. The following is an examiner's statement of reasons for allowance: The prior art failed to disclose a high-volume insert for a toy figure having a hollow body configured to define a hollow interior space within an appendage of the figure that occupies at least 50% of the volume of the appendage and also including at least one engagement portion configured to engage and form a pivotable connection with another portion of the figure in the form of a substantially planar tab with a cylindrical boss extending therefrom. The prior art also fails to disclose the hollow body portion configured to remain hollow after the toy figure has been molded over by an outer layer. A hollow body insert with engagement portions for forming a pivotable connection with another portion of the toy figure formed by a first body segment and a second body segment wherein the first segment includes at least one cylindrical hollow dowel and the second

segment includes at least one cylindrical hollow boss for slidably receiving the dowel so as to join the body segments together, was also not disclosed in the prior art.

3. The closest prior art disclosed in patent numbers 4,470,784 to Piotrovsky, 3,350,812 to Lindsay et al., and 3,277,601 to Ryan disclose internal skeletal inserts for molded toy figures but do not disclose the use of inserts that define a hollow interior space within the appendage that can also remain that way after molding. Patent number 2,174,932 to Weis et al. discloses the use of a hollow insert that remains open and as such would not be capable of preventing the hollow interior from being filled in when used in injection molding.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alyssa M. Hylinski whose telephone number is 571-272-2684. The examiner can normally be reached on M-F (8-5:30).
